

Deliver the right message at the right time and at the right place with iMira™ 2

Portable signage solutions that bring innovation and versatility to your business communications

How it works

Stand-Alone Mode

Update your digital content in our built-in media player via WiFi or USB. The built-in storage capacity of 5GB supports almost all video and image formats. There are also HDMI input and output that allow external computer synchronization using third-party media player software.

Multi-screen Mode

iMira can be used as a video wall connected via HDMI cables or wirelessly. Be creative with Mirroring Mode or Extended Mode. Connect unlimited iMiras together to create video images confined only by your imagination.

Wireless Multi-screen Mode

Link maximum three iMiras together and stay connected via a router.

Mirroring Mode

Show the contents of one iMira on the screen of another iMira simultaneously.

Extended Mode

Split and show the same video content on 2 or more iMiras simultaneously. Also known as cascade or split-screen mode.

Manage and Control Your Network Remotely and Globally

Mira makes centralized video control and management via internet delivery workflow reality. Cast your video remotely without the need to have an on-site controlling device or PC. Increase your efficiency by administering and monitoring your video from the comfort of your office or home.

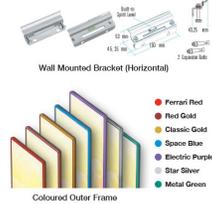

Mobile Base APP
Control, design, edit, upload and playlist management are able to perform by Android Base Mobile Devices.

Perfectly Completes The Already Spectacular

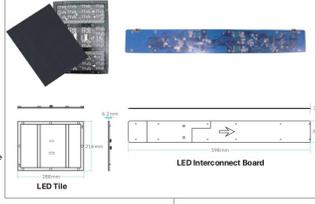

STANDARD ACCESSORIES

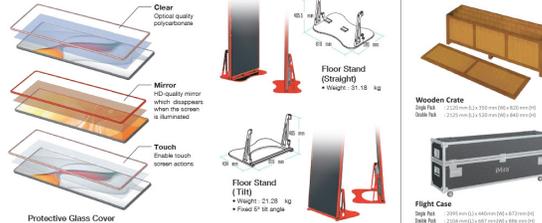

OPTIONAL ACCESSORIES

REPLACEMENT PARTS

FREIGHT PACKING

* Non-standard accessories, options and parts available as separately orderable items to complement our LED display solutions. Every iMira comes with standard black outer frame.

Product Key Features :

- Plug & Play with Zero Configuration
- Ultrathin with Flexible Maintenance Mode
- Reliable Cableless Connection
- Multiple Choice of Content Input and Management
- Intelligent Mobile Device base control, content editing & playlist management

HUAHAI LED

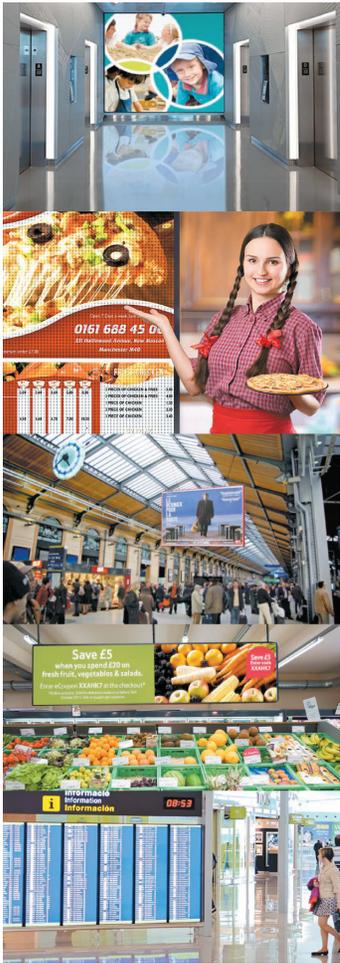

Avant-garde Digital Poster Frame
Smart, Sleek, Simple

7231 NW 54th street, Miami, FL 33166

(305) 436-8650

Product Features

**ULTRASLIM
& LIGHTWEIGHT**
INSTALLATION-FRIENDLY

iMira™2 has been engineered with latest technologies to give it a smoother, slimmer profile. It's crafted in beautiful anodized lightweight yet durable aluminum, to make the entire poster frame weigh less than 35kg, making it more portable and easier to install.

**PLUG 'N PLAY
MEDIA PLAYER**
ZERO CONFIGURATION

Enjoy the privilege of watching or screening your own video, audio or pictures playlists anytime, anywhere with iMira™2. Update your digital content in our powerful built-in media player via WIFI or USB. Easy-to-follow on-screen menu makes it absolutely simple to schedule your content and no complicated configuration is needed whatsoever!

**FRONT
SERVICEABILITY**
SNAPPY & EASY

You'll love the speedy convenience of doing servicing and panel module replacements from the front with just a handle magnet. Thanks to the patented cableless technology in connecting the modules. Yet another advantage, exclusive to your iMira™2.

**SMART
MODULE**
SMOOTH OPERATION

The futuristic Smart Module ingeniously incorporated into each DSG iMira™2's system is its powerhouse. Engineered around a high-performance Internet Cyclone IV FPGA capable of parallel processing, and deeper integration with MCU management tools enables the display module to be self-contained in communication and management. Together they form the core of Smart Module and deliver powerful video processing platforms, ensuring all operations converge, thereby ensuring seamless connections like screen monitoring operations and auto-detect work continuously.

**INTELLIGENT
MANAGEMENT**
STAY IN CONTROL

iMira™2's pre-integrated software enables you to connect to it with a PC or Android devices from a single location via RJ45, WIFI, 3G, USB and HDMI. That makes it extremely easy to identify your display and manage settings like brightness and contrast. Play your content directly from your device be it a laptop, tablet or smart phone. Perform centralized video control and management via internet. Your efficiency is increased because you can edit your video remotely without the need to have an on-site controlling device or PC, administer and monitor your video from the comfort of your office.

Boardrooms & Control Rooms

Product Features

Immersive Visual Experience
Our 2.5/1.8 mm pixel pitch display is truly seamless and the absence of distracting bezels empowers you to fully exploit your impactful signage content.

Awesome Image with Intelligent Content Monitoring & Management
Engineered around a high-performance Internet Cyclone IV FPGA and Advance DDR Flash Chip, iMira's Smart Module is able to deliver excellent image quality with high refresh rate, intelligent video monitoring and worry-free management capabilities.

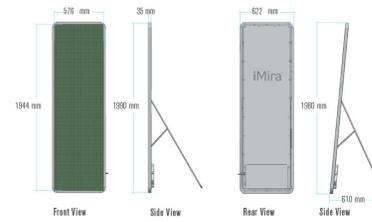

Wall-mounting Options
Our unique wall mountable brackets with built-in levels provides an easy and secure way to affix your iMira to the wall be it horizontal or vertical.

Fold-out Stand
Rest assured of its sturdy support plus the discreet tuck-away neatly incorporated into the groove when not used.
